

Conclusions, Q&A

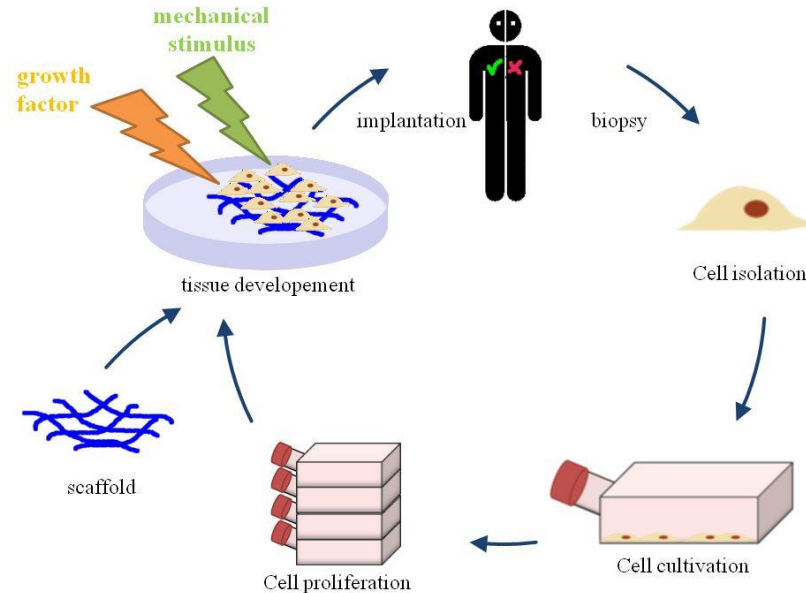

All

Abstractions for 3D Printing

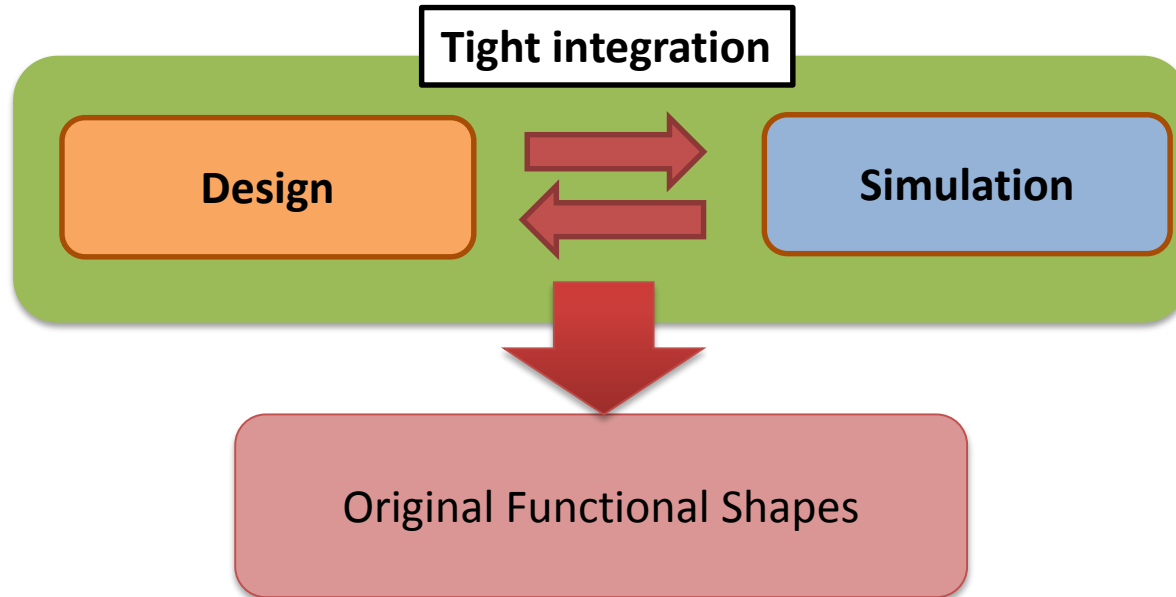

Challenges and Discussion Topics

- What are the “killer” applications?

Challenges and Discussion Topics

- Fast and predictive simulation for virtual preview and functional specification

Challenges and Discussion Topics

Free Software/Open Hardware vs. Commercial Products

- Free
 - Extensible
 - Community participation
 - Delays due to IP
- Professional design
 - Support service
 - Proprietary/closed design
 - Expensive

Challenges and Discussion Topics

- How to develop content design tools for 3D printing?
- What is the content distribution model?
- How to reward content creation?
